

Dashboard Design

Date	26 August 2026
Team ID	-
Project Name	Food Ordering Behaviour and Consumer Trends
Maximum Marks	5 Marks

Creating an effective dashboard involves thoughtful design to ensure that the presented information is clear, relevant, and easily understandable for the intended audience. Here are some key principles and best practices for dashboard design

Activity 1: Interactive and visually appealing dashboards

Creating interactive and visually appealing dashboards involves a combination of thoughtful design, effective use of visual elements, and the incorporation of interactive features. Here are some tips to help you design dashboards that are both visually appealing and engaging for users so take care of below points

- Clear and Intuitive Layout
- Use Appropriate Visualizations
- Colour and Theming
- Interactive Filters and Slicers
- Drill-Down Capabilities
- Responsive Design
- Custom Visuals and Icons
- Use of Infographics

Note: Highlight the major outcomes in form of bullet points

Major Outcomes

- **The dashboard analyzes 50,000 customer orders**, providing a comprehensive overview of food ordering behaviour and consumer trends.
- **Desserts received the highest number of customer orders**, indicating a strong customer preference among all cuisines.
- **Premium restaurants recorded the highest order volume**, showing greater customer demand compared to other restaurant types.
- **Mumbai ranked as the top city by order volume**, followed by the other leading cities displayed in the dashboard.
- **Premium restaurants achieved the highest average order value**, indicating higher customer spending.
- **Customer ratings are distributed across different meal types**, helping evaluate customer satisfaction.
- **The repeat order analysis shows the distribution of repeat and non-repeat orders** for the selected cuisine, providing insights into customer loyalty.
- **Interactive filters and parameters for Cuisine, Meal Type, and City** enable users to explore the data dynamically and support better business decision-making.
